

xtremedoor

Keeping the heat in and intruders out

Why Choose an **Xtreme** Composite Door?

Composite doors offer the look and feel of a timber door without any of the inherent problems, such as cracking, bowing or twisting.

They have a high-density foam core which offers excellent strength and thermal performance, and a durable Glass Reinforced Plastic (GRP) skin to protect from the elements. GRP is the same materials that is used to make the hull of lifeboats - demonstrating just how tough it really is!

And unlike timber, composite doors are incredibly low maintenance - an occasional wipe over with a damp cloth will restore it to its original finish.

Key to Glazing Icons

- ▲ These doors are our Triple Glazed options.
- Obscure glass choice not required.
- These require obscure patterned backing glass. See 'Textured Glass Options' on page 34.

All images portrayed in this brochure should not be reproduced without specific written permission from the manufacturer. Images, designs and colours are for illustrative purposes only and are only as accurate as the printing process allows.

Rosewood and Light Oak are available both sides. The wood effect finishes on the door and outer frame differ slightly due to the nature of different materials involved.

All information within this brochure is provided for guidance only and is given in good faith, but without warranty or guarantee of any kind, whether implied or expressed. Our policy is to continually improve products, therefore methods, materials and changes of specification may be made from time to time without prior notice.

Even the Police Struggle to Force Entry Through an **Xtremedoor!**

67% of burglars
break in through
THE DOOR
official crime statistics from the home office

It takes time and specialist equipment to break through an Xtremedoor.

That's because an Xtremedoor has a rigid polymer subframe, a high density CFC-free polyurethane foam core, impact-resistant GRP skin, a five point locking system and an anti-snap, bump, pick and drill cylinder fitted with a guard for ultimate security.

Don't just take our word for it - the XtremeDoor has PAS 24 2016 Enhanced Security accreditation and Secured by Design endorsement, so you can rest assured your home is safe.

Thermal Performance

Composite doors are much more thermally efficient than either timber or PVC, and our doors are manufactured to the highest quality standards, making them more thermally efficient by design.

The warm foam core allows the door to have a significantly better 'U' value than traditional timber doors, PVC skinned timber doors and steel doors, and our entire range meets with the requirements of the current Building Regulations.

There are various upgrades to glass options which increase the thermal performance of the door.

The combination should keep your home warmer and could help reduce your energy bills.

York

Composite Sidelights

For homes with larger openings, we offer a range of sidelight options to complement your door.

Colour Foiled Frames

Frames can be supplied coloured both sides on request.
Frames can also be sprayed to any RAL number on request.

* The foiled Black/Brown frame may appear lighter than the black door in direct sunlight

Textured Glass Options

There are lots of different glass options to choose from to go with your XtremeDoor. Each type adds something different, helping you maintain privacy in your home or creating a decorative flair that fits in with your personal style. XtremeDoors are double glazed as standard but some glass designs are triple glazed.

Door Colour Options

Our colour collection has been specially designed to help you put together the perfect colour palette for your door. Every home is different and our beautiful range of colours combines both muted heritage shades and bolder vibrant options, to harmonise with your home and to keeping it looking good for years to come. Doors are supplied with a white internal colour as standard, however, coloured both sides is available on request.

Standard Colours

We offer a range of 7 external colours with a white interior as standard.

Premium Colours

*Can't see the colour
you really want?*

No problem! All of our doors and frames can be sprayed in any RAL colour* of your choice.

* Additional costs
and lead times apply
